## **Additional Information**

To change placement status:

- Modify the current placement status and enter an end date.
- Press F11 to add the new placement status. The new placement status start date must equal the previous placement status end date.

If a client goes on a TH (Trial Home Visit) status, all services to the placement provider should be closed. Services can continue to be paid if the client is on RN (Runaway) or MH (Hospital for Medical Purposes) for a period of time to be decided between you and your supervisor.

If a client is on a TH (Trial Home Visit) and then returns to foster care, you must initiate a new child support enforcement referral on the SIID (SEARCHS Initial Inquiry Detail) screen.

Placement status details cannot be modified if the placement is closed on the PLAD (Placement Detail) screen.

The placement on the PLAD (Placement Detail) screen will continue to remain open even during a placement status change. The placement is not closed until the client is returning to care but being placed with a different provider or the case is being dismissed.
